SKYY CONSULTING LTD news report

On October 8th 2018 a new grant scheme opened at the Ministry of Energy for the insulation of existing roofs. According to the Minister's statement the scheme concerns a budget of €3M, with an available grant per case 25% of the eligible expenditures or €1250, whichever is smaller. The expiry date for the scheme is the date that the budget will run out. The roof is a house component where energy losses are estimated to be about 25%. The appropriate insulation of a roof reduces the energy losses, increases the energy performance of the house, reduces electricity bills and provides a feeling of comfort to its occupants.

Do not hesitate to contact us directly at info@skyyconsultingservices.com for any questions you might have.
